

what people are saying

Angie Watkins-Goodwin My days are long & stressful because my child is fighting Childhood cancer. The past week taking THRIVE has helped me get through the days a lot easier! Energy level is off the chart, multi-tasking is in full force, body aches are gone & the lbs are dropping! My hubby also got to experience THRIVE & I can say that every couple should be THRIVING together!

Jim Loreto I have always had sleeping challenges just seem to be wired that way. So Saturday night I can't sleep and I am up all night and usually when that happens I am ruined the next day. I finally decided sleep is not going to happen so I get up and grab my Thrive out of the refrigerator and I take my Thrive Capsule for Men and follow it up with the Thrive Premium Shake Mix. I was thriving the entire day didn't feel like I had been up for 24 hours straight..I couldn't believe how great I felt the entire day it was like the sleeplessness night didn't even phase me...beyond impressed!!!

Brant Padmore Thrive Change my life, When I tried THRIVE my health got considerably better my vision cleared up chronic pain went away my appetite was curbed and a euphoric feeling over took me i had the best day of my life. I knew then we had a winner and this opportunity was going to be huge....Let's THRIVE together!

George Goodwin After taking my 1st day of THRIVE I could tell a huge difference. My appetite was down & my energy level was up. I was able to feel full of energy and positive through out the whole work day. Now I keep checking the mail box daily hoping that my Wife has won more THRIVE!!

Beyond Belief
I have been on the Thrive Lifestyle Capsule for one full week every day with the shake and let me tell you I am BLOWN away by the vivid description that Paul gives because I am the poster child of feeling the brain connection in TEN MINUTES after I take my first capsule!! You talk about laser focused with an incredibly smooth consistent energy all day long!! I drink my shake with almond milk, half a banana, and blueberries 45 minutes after and I find it to be WAY BETTER than any shake I have tasted from any other company in recent years.. I DO notice my hunger and cravings are greatly reduced and this is a biggie but I have been a coffee drinker for 45 years.... I hardly drink one cup of coffee now simply because I feel so good on this capsule, I don't want coffee interfering with it!!

Rachel Dobbs
So, today David came by the house to pick up his Thrive order, later in the day he texted me and said "WHY DO YOU LOOK DIFFERENT?" of course, to me I look the same, but he explained I just look better, happier, bouncier and that I appear to be thinning up and looking more tone! The scales have not said much good news for me, but they never do when I start working out, so I checked out my measurements and he was right, I've lost 5 inches! and it's awesome that there is an obvious change in my physical and emotional appearance from someone who has seen how yucky I have felt the last couple of years, and only having seen me about two weeks ago before Thrive, to, today being a totally different person.

Tim Farrell
All I can say about Thrive is thank you!! Arthritis pain gone focus is great and energy is through the the roof without the crash.

Beth Hurd
My Doctor took a look at the Thrive she say's to go ahead and continue taking it, she say's all the Vitamin B's is probably what is helping me with no headaches all this time I am so happy to receive this report from my Doctor :)

Emily Mashburn
I woke up this morning with terrible pain in my back due to my 8 1/2 month olds feet pushing me all over the bed last night. I took my 2 Thrive capsules and had my shake and I feel like a million bucks!!!!

Barbara McIntyre
WOW!! Any one who has not tried Thrive you do not know what you are missing in making your day SO much better and your clothes fit better!!! Down to 113.9 today. If you have not tried it..Message me and I will get you a free sample.

Don Payne
Le-Vel keeps you focused on how good you feel, instead of what is missing...

Susan Thompson Miller
I have soooooo much energy now since taking Thrive and I feel like a 20 some or perhaps realistically a 30 some year old instead of 46! It has taken 3 or 4 days since starting Thrive; now I don't have the pain from my Fibromyalgia. I could not hold a coffee pot of coffee in my left hand last Saturday, but by Monday night I was grabbing a shopping bag of groceries, one in both hands! Friday I work an outrageous amount of hours for work because we were under a time crunch. I worked over 10 hrs (10 hrs is that is all I can really say right now) that day and was able to get up today for work at 5am for my next shift! This would of never happened before starting Thrive!!! The side effect is that I have lost 6 lbs in 7 days! another 4 lbs, I'll b were I was at the beginning of Oct. YEA!!! at this rate of energy, I will break by goal by Christmas time! I can't wait.

Carole Pizzuti
Day One: UNBELIEVABLE! Have not come across a product like this in YEARS.
Feel 20 years younger? DONE!
Not hungry? DONE!
Unstoppable energy? DONE!
On top of my game all day

Lisa Price Stelmack
I want to share with you my status for today, I am still surprised by this.... "OK I have been telling all of you how good the THRIVE is right? Well as I was talking to Emily Mashburn a few minutes ago about this product I realized something. Do you know I WAS taking 12 to 16 ibuprofens a day? 4 at a time 3 to 4 times a day... Due to the arthritis in my back and neck. Guess what I don't even know where my bottle is!! I haven't taken any since I think the 2nd or 3rd day on THRIVE! That even amazes Me! Bet My body is liking this change! I am truly

James Thompson
THRIVE is blowing me away!! 2 weeks in and we can't believe the results! 2 promoters have upgraded just off of a sample lol! My mother in law says 'it's like Saturday everyday' (she feels good) haha!

Kirsten Nilsen Ryan I tried Thrive W with a bit of skepticism.... I was blown away by my experience! I felt energetic, clear minded and focused. My typical muscular soreness was gone! My knee didn't bother me and when it was time to think about eating something I felt wonderfully in control!! Craved healthy choices! No pill can be a substitute for diet and exercise, but Thrive W made me feel I could take on the world!

Chad Adkins this is an amazing product I am in downtown Chicago working the largest international machine tool show... I have been on my feet 14 + hours per day and entertaining clients in downtown Chicago... I am so thankful I have THRIVE.... my appetite is down and my energy levels are off the chart... I have sold 3 new machines and I feel like the energizer bunny.

Jamie Jordan My THRIVE experience was bar none better than anything I have tried in the past!!! I felt well and focused and full of energy.... Cleaned out my closets (I've been needing to do that for over a yr) Thank you to LV life for having such a great product that will basically sell itself!!! And thank you again for all the opportunities for people to experience this for FREE!!! I can't wait till we go live with orders.

Lisa Webb Gore My friend Toni was kind enough to share a sample with me and I can't believe that just one capsule could make such a difference, but it sure did! My knee and neck pain was relieved, I had energy to get a lot accomplished, and had a decreased appetite. The next day, with no Thrive, I was back to feeling sluggish and wanting some more of it!

Patricia Crouse
Well this morning I woke up feeling wonderful. Something I haven't felt in about 15 yrs. I took my last sample of "Thrive" and went singing to to Dr's office to have my BP checked. I was in such a good mood it is so wonderful to feel that way again. My BP had not lowered but I was in such a good mood the nurse and I didn't care. She said it is not dangerously high. I went home and realized my pace or gate had changed from the old lady walk to a bounce wow. I walked up the couple steps without any effort. Wow and Wow. I put on my work shoes and started mowing with the push mower and I didn't feel like the mower weighed 1000lbs. I only mowed 1/3 of my 1/2 acre but I am not exhausted from it nor am I in my normal pain. I can't believe that I am taking this one little capsule and it makes me feel so good. can't wait for my order to get here so I can feel this good every day.

Judi Farr
Started Thrive on Thursday and now it's Day 4! Amazing results so far, I walked 7 1/2 miles yesterday according to my pedometer doing errands, cooking, cleaning and just the weekend stuff. Still had energy at the end of the day and the best yet was that I've noticed a difference in "my skin". It's softer and at 60 it doesn't look like parchment paper anymore! Love Thrive! Oh, did I mention that I've also lost 3 pounds as of this morning?

Michael Gale
Okay it's official and the Dr's scale "Don't Lie" 12 pounds in 3 weeks with only 12 little old capsules... that's like a buck a pound, except it was with "free samples"...

The doctor was impressed to say the least! I shared the ingredients with him and he stated it was all good stuff. I have an inner ear infection and am on antibiotics, he said to start eating yogurt to get a pro-biotic for intestinal health going and then said that Thrive will do the same thing!

Pam White Kabel
I just want to say - Thank you Le-Vel, Thrive is Amazing and I am so happy that I am apart of this wonderful culture of people!!!

Dawn Meyers
I have lost 8 pounds in 3 days without even trying. Thrive really does what it says. I am typically a severely depressed person. I am feeling a little better each day. Doing more and having more ambition. My husband and my family have commented on my personality emerging. I often fight with myself as to whether Thrive is working on my depression. I can seriously say it has to be. My house is getting much cleaner and I seem to be getting out of bed earlier. I also am getting things done that I procrastinate with all the time. I have chronic pain in my neck and upper back that seems to be vanishing.

Linda Richey
When I took my first Thrive capsule ..about 15 minutes afterwards I felt alert and refreshed. It was as if I had the best nights sleep ever. I had energy to walk for 6 hours at a festival without getting tired and I wasn't hungry at all. What a great product.

Corina Pinkney
I want to thank Barbara M, for sharing THRIVE. My results on one capsule - within 30 mins. I felt as if cotton was removed from my head (that's the clarity others spoke of). By yesterday, walking home from work - I realized that I had no leg cramps all day.

Jack Richey
Wow!
I took my first Thrive capsule today. I was somewhat sceptical.
I first noticed a heightened sense of awareness. But, when I got up from my chair an hour later, I was astounded! My feet felt like I was walking on clouds. They felt like they were energized or rejuvenated. That has continued for eight hours now at the time of this posting.

Chris Stoneberg
Ok guys and gals...i have been on thrive now for 1 week and feeling great. BUT now i get a message from LeVel saying they need to know where to deposit my first check of \$560... Yeahhhhhhhhhhhhhhh... i told them i would like it all in one dollar bills please.

Elizabeth West
I am so excited for Thrive and the LEVEL Brand. I am trying so hard and have so many goals in the fire. I know that soon I am gonna start blazing. I have now been on Thrive for 1 week. I have walked 1 mile every morning and wish I had time for more, by the way I don't exercise (ask Pam).The pain in my neck and shoulder from my car accident 2 years ago is gone. and as the newest person at my company I am now retraining all of my staff. My Co-workers as amazed at my patience, and I am spending my free time at work writing up tools for new hires. I have lost 6 pounds in the last 7 days, I have so much energy, and I haven't slept better in years. I pray that all my friends and family will will awaken to the blessings and riches that Thrive and LEVEL can bring to them!!! GOD BLESS!!!!
